- 1 Desk Chest, the ideal item for home office. Appearing as a 6 drawer chest that cleverly conceals a large work station for lap-top and tablet computers. The bureau front can be easily closed away to conceal all office stationary.
- 2 Desk chest bottom drawer opens for file storage, both aperture's can be configured for suspended file storage, either A4 or foolscap size folders. Also the drawer can be used general storage.
- 3 Working area for Desk Chest reveals detailed drawer bank for stationary etc. Also includes "secret" drawer for those special items. Cables for computers, phone chargers etc are catered for with detailed access for all cabling issues.
- 4 Corner desk with side table all office items are made to be modular so you can link filing drawers next to all items. The two drawer filing cabinet can be used for suspended file storage, either A4 or foolscap size folders. Also the drawer can be used general storage. The Side table can be used for printer stand or for general storage. The middle shelf is fully adjustable to accommodate office folders, printers, fax machines etc.
